

ePRI4ALL moves forward!

The ePRI4ALL project - **Open digital resources for primary school principals to support inclusive education through online learning** continues to progress. All those interested in learning more about the self-training educational resources on this topic can access the MOOC training course by clicking on "Result 3" within the following link: <https://epri4all.erasmus.site/> And to the game-based mobile APP for principals and school leaders by accessing the GOOGLE Play Store at the following link: <https://play.google.com/store/apps/details?id=eu.dcnnet.epri4all> iOS/Apple: <https://testflight.apple.com/join/kHTBDKnt>

Result 3: We created a MOOC course!

In early November 2023, the Italian partners (UNIMORE) launched the first Pilot-Run of the MOOC: *School Leaders and Inclusive Digital Learning*. A three-week course (12 hours of learning in total), totally free of charge and with a dedication of 3hs per week.

The aim of the course is to further strengthen the continuing professional development of head teachers and school leaders in online and inclusive education, providing knowledge, skills and competences in management and guidance; and skills to meet the needs of learners.

Result 4: We launched a multilingual mobile APP!

What is it?

It is a game-based APP, which aims to provide effective training for primary school leaders, educators, trainers and education facilitators.

The APP is an innovative digital training tool that combines mobile learning and game-based learning with gamification.

Why M-learning?

With technology omnipresent, the high number of mobile phone users, the fast pace of life and the need for more flexible solutions, m-learning optimises the resources available today. Moreover, it is suitable for acquiring knowledge in a systematic way, giving immediate access to small or independent pieces of information.

Coming soon...

In late November and early December 2023, the consortium launched four *National Workshops*, one for each country of the consortium (Almeria; Reggio Emilia; Athens and Rzeszów), an event to introduce education leaders, education students and key stakeholders to the Open Educational Resources (OERs); the MOOC course and the mobile APP, which aims to train leaders in the field of education and e-Inclusion.

During this time, the consortium also decided to launch in early February 2024 the **second Pilot-Run of the MOOC**, or rather the second round of enrolment for all those who wish to continue training in this line (now with translations into several languages). Also, in the last month, the partnership launched the **multilingual APP** (Spanish; English; Polish; Italian and Greek).

About e-PRI4ALL

The ePRI4ALL project - *Open Digital Resources for Primary School Principals to Support Inclusive Education through Online Learning* - arose in the context of the COVID-19 pandemic with schools closed for long periods of time, when distance learning had to be addressed. The project aims to implement an innovative programme to guide the pedagogical development and digital competences of primary school principals, with a special focus on vulnerable learners.
